The Neighborhood & Things To Do

- Go here for information on the neighborhood:
<http://coronaadobe.com/the-neighborhood/> The Corona Adobe is located in a real Mexican neighborhood, which means at times there is noise from children, music, cars, etc. The curtains in the downstairs bedrooms are blackout and noise reduction. If necessary, there are earplugs available. Please do not say anything to neighbors about their activities. We live in their country.

Restaurants We Recommend

- La Palapa on Los Muertos Beach. It would be a lovely place to have Christmas Eve. Make a reservation as soon as you arrive. You can ask for a table on the sand (my favorite), but the interior is lovely as well.
- Archie's Wok on Francisca Rodriguez below Olas Altas in Old Town. Delicious fusion food. Chef is son of John Huston's personal chef when he lived here. One of my favorites.
- Trio is probably the best restaurant in town for the food. About 4 blocks away from Corona, down Matamores toward the Church
- La Dolce Vita (on the Malecon corner of Paseo Diaz Ordaz). Excellent Italian cuisine.
- Vitea (on the Malecon at Libertad) Very good food and good people watching.

Very Local

- La Cigale (a 4 minute walk, on the corner of Iturbide and Hidalgo). Excellent French food and gracious hostess-Kat.
- Florio's (a 3 minute walk down the Corona staircase and go two blocks left). Italian and Argentinian. Great meat platters. Very cozy atmosphere inside as well as sidewalk tables
- Gaby's (Mina at Hidalgo-down the stairs off Matamoras) Great for breakfast.
- El Patio de mi Casa. Guerrero 311. About three blocks walk south on Miramar, then down the stairs. It's hidden away. This has great atmosphere, great bar, pizzas and music. You'd never find it unless directed.
